(2) **Landscape and aesthetic value**

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

(a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
(b) represents an outstanding example of the species, including age, size or habit; or
(c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

Statement Against the Criteria

This remnant *Eucalyptus melliodora* is located at the front of the block at 40 Clianthus Street O'Connor. The tree is an exceptional example of a local native species which reached maturity prior to urban development in the immediate vicinity. The tree contributes significantly to the surrounding landscape due to its age, stature and prominent location. The tree has a single stout trunk and a large spreading canopy. The tree has been well maintained in the past and carries very little dead wood.
