## Tree Registration

### Nomination 119 Tree Number PTR119

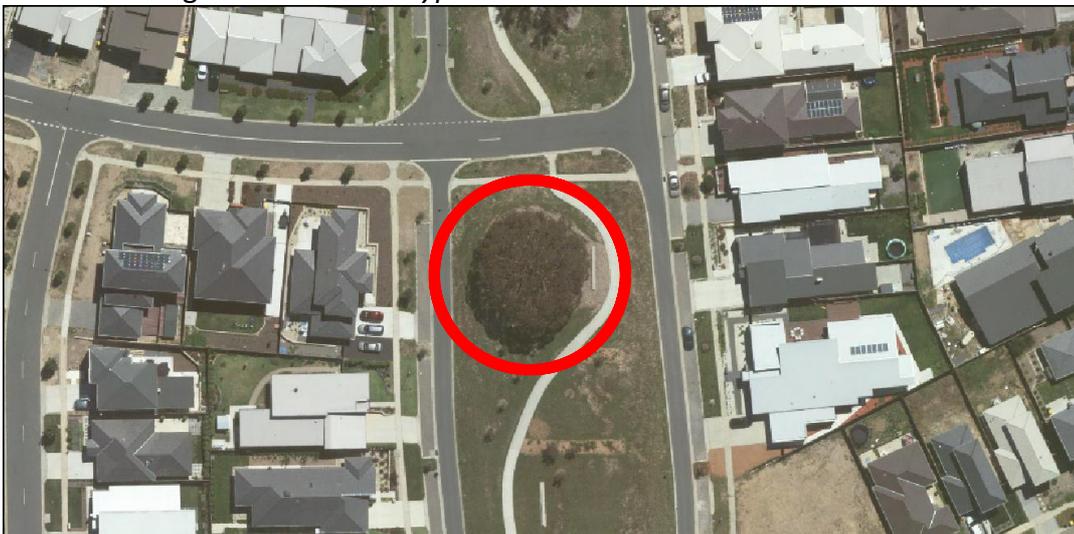

Species: *Eucalyptus melliodora* (Yellow Box)

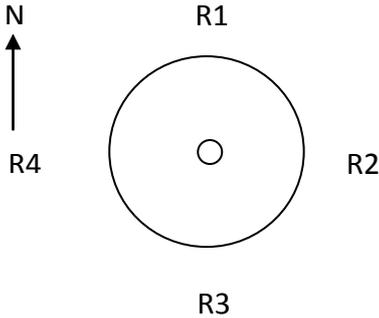

Location: Block 1 Section 53 Forde

Photo of tree:

Photo showing location of *Eucalyptus melliodora* PTR119 in Forde

Criteria	Details of tree
Street address	Hurrell Street Forde
Location on block	Within urban open space adjacent at the eastern end of Hurrell Street
Botanical name:	<i>Eucalyptus melliodora</i>
Common name:	Yellow Box
Tree height	17.5m
Canopy broadest diameter:	23.5m
Description of radial measurement	
Canopy radial measurement	R1: 12.0m R2: 11.5m R3: 10.5m R4: 12.0m
Trunk circumference:	4.32m
Number of trunks:	1
Grid co-ordinates: AGD 66 Grid	X 212,347.042 Y 616,226.587

**Registration Criteria that presently apply, other criteria may apply after further assessment.**

**(2) Landscape and aesthetic value**

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

**Statement against the Criteria**

This *Eucalyptus melliodora* is one of five individual trees located in the new estate of Forde. The trees have been selected because they are the most outstanding specimens in the suburb which provide high aesthetic and landscape values.

This very impressive tree has a single trunk with a large spreading canopy. It has a height of approximately 17.0meters, a canopy width of 23.3 metres and a trunk circumference of 4.32metres. The tree does carry some mistletoe which is natural phenomena and a part of the local ecology.

The trees are all located within urban open space in prominent locations. Careful planning has allowed for a large number of remnant eucalypts to be retained which provide landscape maturity in a suburb which is only a few years old.

**Nomination 119**  
**Number PTR119**  
***Eucalyptus melliodora* (Yellow box)**

**ACT Tree Register**

**(Registration)**

Pursuant to Division 7.2 of the *Tree Protection Act 2005* as the Conservator of Flora and Fauna the following decision has been made under section 52(1) to enter or not enter the above tree(s) to the ACT Tree Register

**Registration**

**Yes**
