ACT Tree Register

Tree Registration

Nomination 128A PTR200

Species: *Quercus robur* 'Fastigiata' (Fastigate English oak)

Location: Block 8 Section 51 Lyneham

Location of *Quercus robur* 'Fastigiata' in Lyneham

Criteria	Details of tree
Street address	De Burgh Street Lyneham Lyneham Housing Precinct
Location on block	North side of Flat 112
Botanical name	<i>Quercus robur</i> 'Fastigiata'
Common name	Fastigata English Elm
Tree height m	17.0m
Canopy broadest diameter	12.0m
Description of radial measurement	<p>The diagram illustrates the radial measurement method for the tree. It features a central point representing the tree trunk, with four lines extending outwards to the canopy edge, labeled R1 (North), R2 (East), R3 (South), and R4 (West). A North arrow is positioned to the left of the tree, pointing upwards.</p>

Criteria	Details of tree
Canopy radial measurement	R1: 5.5m R2: 6.0m R3: 5.0 R4: 6.0
Trunk circumference	2.36m
Number of trunks	1
Grid co-ordinates MGA	X 694,025.697 Y 6,096,679.077

Registration Criteria that presently apply, other criteria may apply after further assessment.

(1) Natural or cultural heritage value

The object of this value is to identify trees that are of particular importance to the community due to their intrinsic heritage values.

A tree may be considered to be of natural or cultural heritage value when it is:

- (a) associated with a significant public figure or important historical event; or
- (b) of high cultural heritage value to the community or cultural group, including trees associated with aboriginal heritage and culture; or
- (c) associated with a heritage nominated place and representative of that same historic period.

(2) Landscape and aesthetic value

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

Statement against the Criteria

This tree is one of several located within the Northbourne Housing Precinct which have been nominated for inclusion to the ACT Tree Register. This tree is important because of its cultural, heritage and landscape values. It is in excellent health and provides a significant aesthetic contribution within the precinct. It is noted that the tree is located in the Northbourne Housing Precinct which was designed by Sydney Ancher, a noted modernist architect. The Heritage Council resolved on 12 February 2015 to register a portion of the Northbourne Housing Precinct on the ACT Heritage Register. Northbourne Avenue is a main traffic corridor into Canberra and trees growing within lease boundaries along the avenue play an important role in promoting Canberra's garden city characteristics.

Nomination 128A

PTR200

***Quercus robur* 'Fastigiata' (Fastigate English Oak)**

ACT Tree Register
