Trunk circumference:	3.6m
Number of trunks:	1
Grid co-ordinates: MGA	E 693124 N 6078849

Registration Criteria that presently apply, other criteria may apply after further assessment.

(2) Landscape and aesthetic value

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

Statement against the Criteria

This remnant *Eucalyptus melliodora* is located on the verge adjacent to Mead and Proctor Streets in Chisholm. The tree is an exceptional example of a local native species that reached maturity prior to urban development. The tree has a single trunk and a large symmetrical canopy. The tree is very prominent and provides an important feature within the landscape.

Nomination 80

Number PTR080B

***Eucalyptus melliodora* (Yellow Box)**
