Trunk circumference:	m		
Number of trunks:	1		
Grid co-ordinates MGA:	E 694342.7 N 6093723.7		

***Registration Criteria that presently apply, other criteria may apply after further assessment.***

**(1) Natural or cultural heritage value**

The object of this value is to identify trees that are of particular importance to the community due to their intrinsic heritage values.

A tree may be considered to be of natural or cultural heritage value when it is:

- (c) associated with a heritage nominated place and representative of that same historic period.

**(2) Landscape and aesthetic value**

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit.

**Statement Against the Criteria**

This *Tilia cordata* is a beautiful example of the species. The tree is located within the Bega Court apartment complex at the southern end near the entrance gate facing the city. The tree appears to be exceptionally healthy and whilst it is not of immense size it has taken approximately fifty years to reach maturity. This tree has been nominated for inclusion on the ACT Provisional Tree Register due to its historic connection as part of the original landscape planted in association with the cubiform architectural style represented on the site. At the current time Bega Court is being assessed for inclusion to the Interim Heritage Places Register.

**Nomination 73**  
**Number PTR058**  
***Tilia cordata* (Small Leaved European Linden)**

**ACT Tree Register**
