(2) Landscape and aesthetic value

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

Statement against the Criteria

This *Eucalyptus melliodora* is one of two exceptional trees located in the suburb of Amaroo. The trees have been selected for inclusion to the ACT Tree register because of their outstanding aesthetic and landscape values.

This impressive tree has a single trunk with a large spreading canopy. It has a height of approximately 19.5meters, a canopy width of 25.5 metres and a trunk circumference of 4.30metres. The tree is in exceptional health and condition and is located in a very prominent position on the verge of Shoalhaven Avenue.
