## Tree Registration

### Nomination 120 Tree Number PTR120

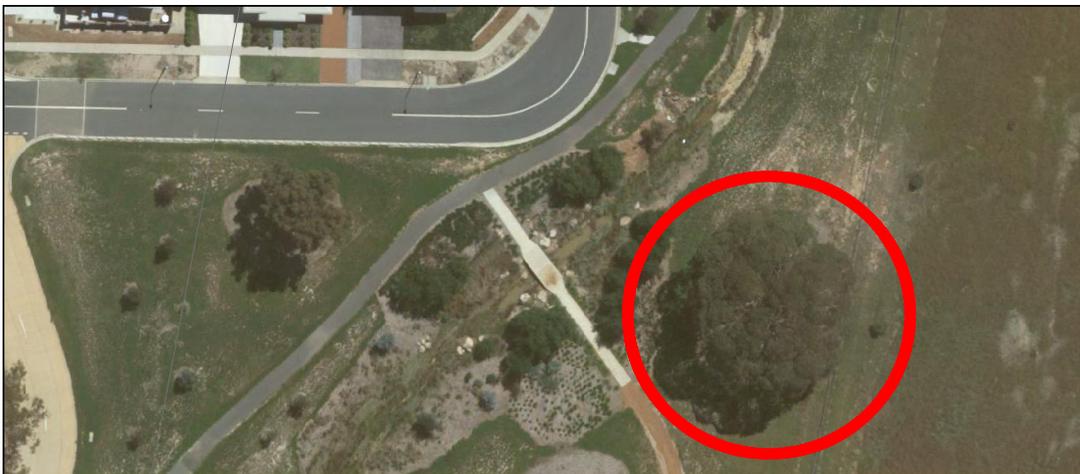

Species: *Eucalyptus melliodora* (Yellow Box)

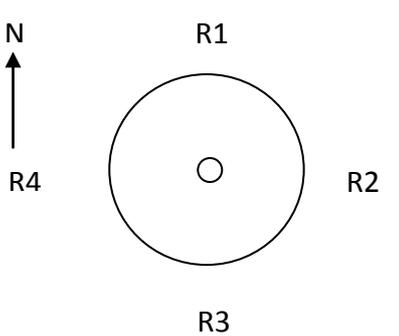

Location: Block 4 Section 83 Forde

Photo of tree:

Photo showing location of *Eucalyptus melliodora* PTR120 in Forde

Criteria	Details of tree
Street address	Eric Wright Street Forde
Location on block	Located on urban open space adjacent to Eric Wright Street
Botanical name:	<i>Eucalyptus melliodora</i>
Common name:	Yellow Box
Tree height	19.5m
Canopy broadest diameter:	23.25m
Description of radial measurement	 <p>The diagram shows a central circle representing the tree canopy. A north arrow points upwards from the center. Four radial measurement lines are drawn from the center to the outer edge of the canopy, labeled R1 (top), R2 (right), R3 (bottom), and R4 (left).</p>
Canopy radial measurement	R1: 10.5m R2: 10.5m R3: 11.75m R4: 12.75m
Trunk circumference:	3.95m
Number of trunks:	1
Grid co-ordinates: AGD 66 Grid	X 212,859.861 Y 616,188.556

**Registration Criteria that presently apply, other criteria may apply after further assessment.**

**(2) Landscape and aesthetic value**

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

**Statement against the Criteria**

This *Eucalyptus melliodora* is one of five individual trees located in the new estate of Forde. The trees have been selected because they are the most outstanding specimens in the suburb which provide high aesthetic and landscape values. The trees are all located within urban open space in prominent locations.

This particular tree is located on the eastern side of the suburb adjacent to the Gorooyaroo Nature Reserve. The tree has a single trunk with a large spreading canopy. It has a height of approximately 19.5meters, a canopy width of 23.25metres and a trunk circumference of 3.95metres. This tree adds significantly to the aesthetic and landscape character of the suburb and is an asset which should be recognised by its inclusion to the ACT Tree Register.

**Nomination 120**  
**Number PTR120**  
***Eucalyptus melliodora* (Yellow box)**

**ACT Tree Register**

**(Registration)**

Pursuant to Division 7.2 of the *Tree Protection Act 2005* as the Conservator of Flora and Fauna the following decision has been made under section 52(1) to enter or not enter the above tree(s) to the ACT Tree Register

**Registration**

**Yes**
