- Deciduous
- Broadly pyramidal shaped tree with a straight trunk and uniform upright branching
- Greyish-brown bark becoming fissured with age
- Dense pale green foliage changing to yellow/gold in autumn
- Insignificant flowers
- Considered seedless

Height and width

10 to 15 metres tall by 8 to 10 metres wide

Species origin

Eastern North America

Landscape use

- Available Soil Volume required 30m³
- For use as a street tree
- Can be used in parks, suburban shopping centres, schools and home gardens
- Requires a minimum clearance of 6 metres from buildings

Use considerations

- Suitable for Canberra's climate
- Should perform well in the ACT
- High frost tolerance and moderate drought tolerance
- Suitable for most soils, but dislikes badly compacted soils
- [Medium longevity](#)
- Moderate growth rate
- Low flammability
- Can be formative pruned to develop a strong structure

Examples in Canberra

Westbourne Woods
