Subject: TCCS Skatepark Surface Repair FOI Request

Hi,

Under the Freedom of Information Act 2016 I would like access the following document/s:

- The Audit of Work for repairs at the Eddison (Woden) skatepark that was conducted last year (TCCS)
- Any documents, quotations (if possible) or correspondence relating to concrete and surface repairs at Belconnen, Eddison and Tuggeranong Skateparks in 2016, 2017 and 2018 (TCCS)

Regards,
Dear [Redacted]

Freedom of Information request: Reference 18-086

I refer to your application made under the Freedom of Information Act 2016 (the FOI Act) received by the Transport Canberra and City Services (TCCS) directorate on 2 October 2018, in which you sought access to:

- the audit of work for repairs at the Eddison (Woden) skatepark that was conducted last year;
- any documents, quotations or correspondence relating to concrete and surface repairs at Belconnen, Eddison and Tuggeranong Skateparks in 2016, 2017 and 2018.

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

TCCS was required to provide a decision on your access application by 30 October 2018. I note that you have agreed to an extension until 2 November 2018.

Decision on access

A search of TCCS records was conducted and nine documents (73 pages) were identified that fall within the scope of your request.

I have included as Attachment A to this decision the schedule of relevant documents. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

The documents identified as relevant to your request contain information that I consider to be, on balance, contrary to the public interest to disclose under the test set out in section 17 of the Act.

I have decided to grant access, under section 50 of the Act, to copies of documents (Attachment B) with deletions applied to information that I consider would be contrary to the public interest to disclose.

Statement of Reasons

In reaching my access decision, I have taken the following into account:

Factors favouring disclosure (Schedule 2)

- Section 2.1 (a)(viii) – reveal the reason for a government decision and any background or contextual information that informed the decision.
Factors favouring non-disclosure (Schedule 2)

- Section 2.2 (a)(i) – prejudice the Protection of an Individual’s Right to Privacy; and
- Section 2.2 (a)(x) – prejudice trade secrets, business affairs or research of an agency or persons.

Documents referenced number 1 to 3 consist of commercial information from third parties in relation to quotes for repair works at the Woden and Tuggeranong Skateparks. The methodologies of a third-party contractor, detailing maintenance works, is also contained in document referenced number 1. These sections contain commercial value and would, or could reasonably be expected, to be destroyed or diminished if the information were disclosed. The breakdown of costs for works holds commercial value which could be used by competitors. It is a fine balance to seek transparency in Information release and protect against information being used to the commercial disadvantage of a third-party contractor.

Furthermore, disclosure of this information could be expected to prejudice the future supply of information to TCCS for this purpose. Receiving information from contractors who specialise in this field requires a level of trust that the information will be used as indicated and that individuals will not be exposed to adverse outcomes if the information is not protected. In this case, the release of any commercial information at this time would be damaging for the reasons I have discussed and outweighs the release in this instance.

Furthermore, documents referenced 1-4 and 7-9 of the identified documents contain personal information of third-party contractors and the mobile numbers of TCCS employees. Disclosure of personal information is governed by the ‘use and disclosure’ privacy principles. Part 3 of the Information Privacy Act 2014 (TTP 6.1) states that an agency that holds personal information about an individual that has been collected for a particular purpose, must not disclose the Information to a third party unless the individual has consented to the use or disclosure of the Information.

In considering the type of information I propose to withhold from release, I am satisfied that the factors in favour of release can still be met while protecting the personal information of individuals involved. I find the protection of this information outweighs disclosure in this instance. I have, therefore, decided that it is not in the public interest to disclose information that is considered as personal information.

I have also deleted out of scope information from document 3. This information relates to the contractor’s movements and availability.

Charges
No fee is payable as the number of pages being released is within the fee-free threshold.

Online publishing -- disclosure log
Under section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log. Your original access application, my decision in response to your access application and documents will be published in the TCCS disclosure log from 3 days after the date of this decision. Your personal details will not be published.

Ombudsman review
My decision on your access request is a reviewable decision as identified in Schedule 3 of the Act. You have the right to seek an Ombudsman review of this outcome under section 73 of the Act within 20 working days from the day that my decision is published in TCCS’ disclosure log or a longer period allowed by the Ombudsman.

If you wish to request a review of my decision, you may write to the Ombudsman at:
   The ACT Ombudsman
   GPO Box 442
   CANBERRA ACT 2601

   Via email: actfol@ombudsman.gov.au

ACT Civil and Administrative Tribunal (ACAT) review
Under section 84 of the Act, if a decision is made under section 82(1) on an Ombudsman review, you may apply to the ACAT for review of the Ombudsman decision.

Further information may be obtained from ACAT at:
   ACT Civil and Administrative Tribunal
   Level 4, 1 Moore Street
   GPO Box 370
   CANBERRA CITY ACT 2601
   Telephone: (02) 6207 1740
   www.acat.act.gov.au

If you have any questions concerning the directorate’s processing of your request, or would like further information, please contact the directorate’s FOI Coordinator on 6205 5408 or email tccs.foi@act.gov.au.

Yours sincerely

[Signature]

Cherie Hughes
Information Officer

Hi Mark,

Thank you very much for the quick response after talking with me this morning regarding the Skate Park in Woden.

Could you please provide a price on a cycle [redacted] days’?

Happy to meet onsite with you at any time.

Cheers Mick

Tessa

I spent about an hour there. The parks in pretty bad condition. Main issue is the slab holes that need repairing at bottom of obstacles where flat meet curves etc & even cutting out the ones that have been repaired incorrectly. There's a lot of cracking that's starting to pit out on both sides of the cracks. There's surface areas that are extremely worn & require cutting back to a smooth surface. The concrete itself requires a clean & seal (this will prolong the life & help protect it from the elements. Differential slab elevations in areas.

This park is in need of repair. To replace this asset this size today would be $1.2 to $1.4 million, this asset can be saved & brought back to life with minimal maintenance once repaired (similar to the Bondi Beach park we repaired skate last year).

We could shut down sections at a time.
Can you get me the plans to confirm SQM? Then I can arrange price.

How old is this park?
Built by convict rights?
I worked out some brief estimates works would start about $\_\_\_\_k / $\_\_\_\_k mark n up. That's restoring asset back to like new. In hind site a project this size I'm guessing would be needed to be tendered out? You would require a full site audit.

Bondi images below, This park was in similar condition (never maintained really at all) now it's like back to its original state. It does still require maintenance to keep it looking good but at the end of the day to replace old for new this park would be about $1.4 MILLION.
Begin forwarded message:
All of above images are the top street section at entry level

Works required
80 m crack repair
40 x 9 m flat grinding (to restore concrete to smooth)
Possible obstacle hand cuts back to smooth 2.2 x 8 m banks 1.5 x 8 m Quarter pipes
15 ground patches need colour matching & replacing
Full light acid wash & total reseal to above area (3 Coates 1 x primer 2 x sealer)

All of the below are images of the large bowl & flow bowl street area
EST 40 m cracks
Requires a full light acid wash reseal
Small patches

Flow street bowl main area
100 m cracking

15 ground patches need colour matching & replacing
20 m differential surface areas
Full light acid wash & total reseal to above area (3 Coates 1 x primer 2 x sealer)
Crack require chasing out & repairing
All above surface patches
Both above differential surface elevations

Remove & replace ground patch
Park overview

Top street area at entrance

Hi Ross,

Thanks for meeting on site at the Belconnen Skate Park (26 July 2017), it was good to meet both you and Mark.

As discussed we are keen to undertake repairs of cracks and chipped concrete at the park. We are also aiming to develop some standard work method statements which would allow any internal or external stakeholders to have a clear understanding of the standards, materials and process for repairs/maintenance that would need to be followed and that we expect at any of our skating facilities. This would also avoid substandard patchwork repairs which will fail prematurely.

I have compiled a list of current issues (see attached), I have categorised the issues based on the location or section within the park. It would be great to get some costing on repairs from Complex Civil so we can plan how to best proceed.

Cheers,

Belconnen Skate Park Issues

Date: Friday 28 July 2017

There are three main problem sections at Belconnen Skate Park, outlined roughly below, also note the location of power outlets.

Section 1: Lower section of the park opposite the wetlands

Section 2: Raised section opposite Emu Bank road including the three interconnected bowls.

Section 3: Section adjacent to large main key hole bowl

Hello Skatepark Users,

As many of you would be aware, concrete repairs were recently completed at the Belco Skatepark.

We would appreciate any feedback, but particularly on:
- The impact (if any) of having workers closing sections of the park.
- The quality of the repairs. Have we managed to solve most of the concrete problems?
- The durability of the repairs. Are the renovated concrete sections deteriorating quickly as they have in the past? (this will require ongoing feedback)

Also,
The Woden Skatepark at Eddison Park will be the next venue to undergo concrete repairs. It is anticipated that renovations will commence early in 2018. When the exact dates are confirmed, another message will be circulated.

Please pass this information on to your friends and other skate park users.

Regards,

TCCS
HI

Thank you for your enquiry.

Yes. An audit was completed at the Woden Park and a number of faults were identified. Repairs to the concrete surface should occur early in the new year.

When the exact dates are confirmed, another message will be sent.

Regards.

TCCS

HI,

I was recently chatting with [redacted] from Revolution Action Sports Concepts (contractor working on Tuggeranong ramp project).

He mentioned that while he was doing the Tuggeranong work he engaged with a Maintainence Co-Ordinator named Stephen McDougal.

Apparently some quotes were requested for audits on all of the Canberra Skateparks but it didn't eventuate.

The reason I ask is that we're only just seeing repairs finally start at Belco after a very long time of lobbying for them. I'm very happy to see the Belco repairs commence but it's been brought to my attention that there are also many maintenance issues with Woden Skatepark that have been outstanding for a very long time.

Was there an audit done on Woden skatepark?

If not would it be possible to have someone with the appropriate expertise do one?

If it has happened already then what were the findings and are there intentions to do repairs there at some stage?

If you could provide us with any kind of information or updates we would greatly appreciate it.

Thanks again for the Belco repairs and I look forward to seeing them!

Regards,
Canberra Skateboarding Association
Hi Lawrence/Tessa

I was at the Tuggeranong skate park this morning to inspect repairs from Rock Solid when I came across this company from Sydney carrying out repairs to the half pipes for Procurements.

See the attached photos of the structures and the drainage work being Installed to dispose of any surface water. I have some broachers for you on the work these guys do and also have samples of the deck platform and the bowl. The material they are using on the bowl is fire resistant and graffiti wipes off.

I will book us in for a catch-up next week, and will give you the samples and broachers.

 Regards

Steve McDougall

Good Morning Steve  

I have received the quote I will get Pat to look and sign off on it.  

What order would they be doing the Skate Parks or even a week start date for each site just so we can inform the Skate Community?  

Sorry to keep going on about time frames it is just one of the things we need to keep the Skate Community happy.  

Thanks for your help with this  

Kind Regards

Hi Lawrence

Just keeping you in the loop, please see below.

I have sent the quotes to response so they should be there to you this morning.

Regards

Hi Steve,

I will send over the other quotes for Weston, Woden, Tuggeranong and Civic skate parks shortly. As for timing if we allow a week for each this will be more than enough time for us to commence and complete the repairs.

Regards

Hi Steve

Thanks for letting me know it's much appreciated.

I will keep any eye out for the other quotes.

Kind Regards

Hi Lawrence
Steve has received the work order to go ahead with the repairs to Belco skate Park.

He said he will have the repairs started and completed this week weather pending.

I have asked Steve to send me the other four quotes today so I can send them for approval. Steve said he should be able to start the other parks next week if the approvals are given. I will keep you up to date.

Cheers
