Hi team,

Can you please confirm that you accept transfer of this request? Please note that the address mentioned in the request is not in Gordon but in Banks.

Cheers
Matt Leonard | Freedom of Information Coordinator | Reporting and Information Management
Ph: 02 6207 3417
Corporate | Chief Minister, Treasury and Economic Development Directorate | ACT Government
Level 2, Canberra Nara Centre | GPO Box 158 Canberra ACT 2601 | www.act.gov.au

Please find online enquiry details below. Please ensure this enquiry is responded to within fourteen working days.

Your details

All fields are optional, however an email address OR full postal address must be provided for us to process your request. An email address and telephone contact number will assist us to contact you quickly if we need to discuss your request.

Title: Mr
First Name: [REDACTED]
Last Name: [REDACTED]
Business/Organisation: [REDACTED]
Address: [REDACTED]
Suburb: [REDACTED]
Postcode: [REDACTED]
State/Territory: ACT
Phone/mobile: [REDACTED]
Email address: [REDACTED]

Request for information

(Please provide as much detail as possible, for example subject matter and relevant dates, and also provide details of documents that you are not interested in.)

Under the Freedom of Information Act 2016 I want to access the following document/s (*required field): Please provide copies of all correspondence, approvals and or applications regarding the installation of fencing/restrictions on the nature strip in front, adjacent or adjoining to house number [REDACTED] Gordon ACT 2906. Fencing was installed in 2013, and numerous
complaints have been made to ACT Government services regarding them since then.

I do not want to access the following documents in relation to my request:

Thank you.
Freedom of Information Coordinator
Dear Mr [Redacted],

Freedom of Information request: Reference 18-011

I refer to your application made under the Freedom of Information Act 2016 (the FOI Act) received by the Transport Canberra and City Services (TCCS) directorate on 30 January 2018, in which you sought access to:

- all correspondence, approvals and or applications regarding the installation of fencing/restrictions on nature strip in front, adjacent or adjoining to house number [Redacted] In Gordon.

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

I understand that you have agreed to an extension for TCCS to provide a decision on your access application by 14 March 2018.

Decision on access

A search of TCCS records was conducted and 20 documents (43 pages) were identified that fall within the scope of your request.

I have included as Attachment A to this decision the schedule of relevant documents. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

Documents identified as relevant to your request contain information that I consider to be, on balance, contrary to the public interest to disclose under the test set out in section 17 of the Act. The information considered contrary to the public interest to disclose includes the name, contact details and personal information of third parties.

I have considered the following material in the assessment of these documents:

- the FOI Act, in particular:
  - Schedule 2 (b)(i) – the person making the request
- the Information Privacy Act 2014; and
- the content of the documents that fall within the scope your request.

As documents referenced numbers 1-10, 13-17 and 19-20 contains information of third parties, I have decided to grant access, under section 50 of the Act, to these
documents (Attachment B) with deletions applied to information that I consider would be contrary to the public interest to disclose.

Disclosure of personal information is governed by the ‘use and disclosure’ privacy principles. Part 3 of the Information Privacy Act 2014 (TPP 6.1) states that an agency that holds personal information about an individual that has been collected for a particular purpose, must not disclose the information to a third party unless the individual has consented to the use or disclosure of the information. I have, therefore, decided that it is not in the public interest to disclose information that is considered to be personal information.

Charges
No fee is payable as the number of pages being released is within the fee-free threshold.

Online publishing – disclosure log
Under section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log. Your original access application, my decision and documents released in response to your access application will be published in the TCCS disclosure log from 3 days after the date of this decision. Your personal details will not be published.

Ombudsman review
My decision on your access request is a reviewable decision as identified in Schedule 3 of the Act. You have the right to seek Ombudsman review of this outcome under section 73 of the Act within 20 working days from the day that my decision is published in TCCS’ disclosure log or a longer period allowed by the Ombudsman.

If you wish to request a review of my decision, you may write to the Ombudsman at:

The ACT Ombudsman
GPO Box 442
CANBERRA ACT 2601

Via email: ombudsman@ombudsman.gov.au

ACT Civil and Administrative Tribunal (ACAT) review
Under section 84 of the Act, if a decision is made under section 82(1) on an Ombudsman review, you may apply to the ACAT for review of the Ombudsman decision.
Further Information may be obtained from ACAT at:
ACT Civil and Administrative Tribunal
Level 4, 1 Moore Street
GPO Box 370
CANBERRA CITY ACT 2601
Telephone: (02) 6207 1740
www.acat.act.gov.au

If you have any questions concerning the Directorate’s processing of your request, or would like further information, please contact the Directorate’s FOI Coordinator on 6205 5408 or email tccs.foi@act.gov.au.

Yours sincerely

Cherie Hughes
Information Officer
Transport Canberra and City Services

\[ /4 \text{March 2018} \]
FREEDOM OF INFORMATION SCHEDULE

PLEASE BE AWARE THAT UNDER THE FREEDOM OF INFORMATION ACT 2016, SOME OF THE INFORMATION PROVIDED TO YOU WILL BE RELEASED TO THE PUBLIC THROUGH THE ACT GOVERNMENT’S OPEN ACCESS SCHEME. THE OPEN ACCESS RELEASE STATUS COLUMN OF THE TABLE BELOW INDICATES WHAT DOCUMENTS ARE INTENDED FOR RELEASE ONLINE THROUGH OPEN ACCESS.

PERSONAL INFORMATION OR BUSINESS AFFAIRS INFORMATION WILL NOT BE MADE AVAILABLE UNDER THIS POLICY. IF YOU THINK THE CONTENT OF YOUR REQUEST WOULD CONTAIN SUCH INFORMATION, PLEASE INFORM THE CONTACT OFFICER IMMEDIATELY.

INFORMATION ABOUT WHAT IS PUBLISHED ON OPEN ACCESS IS AVAILABLE ONLINE AT: HTTP://WWW.TCCS.ACT.GOV.AU/ABOUT-US/FREEDOM_OF_INFORMATION

Hi Matt,

I have seen the application. The way I read it was that the resident wants us to consider installing bollards and planting some trees to prevent parking on the vergel. There is room for us to plant an additional 2 trees which we can do in winter this year as part of our deciduous tree planting program.

I will be back in the office tomorrow and I will pop around to see you.

From: Potter, Matt On Behalf Of TAMS, Permit Approvals
Sent: Wednesday, 16 January 2013 11:22
To: McCarthy, Shelle
Subject: Nature Strip - Banks

Good morning Shelle,

I've moved down to the Public Use Team from Licensing and Compliance for the next three months and have been alerted to an outstanding application/decision.

I've been advised by Matt Badham that you are the appropriate contact in this matter.

Please find attached:

Document xxx6778 – Application to undertake Nature Strip Development Cover Sheet.

Document xxx2694 – Email communication.

The applicant has submitted an application for consideration regarding the use of a nature strip adjacent to his property as ‘a car park’.
The area is displayed below:

Could you review and determine if approval is granted from Urban Treescape?

If you require further information in relation to this or any other licensing matter, please contact me on the below detail.

Kind regards,

Matt Potter | Licensing Officer |

Phone 02 6207 2138 | Fax 02 6207 5956 | Email <mailto:matt.potter@act.gov.au> matt.potter@act.gov.au

Hi Pam

I advised Matt Potter in mid January that I would make contact with the applicant with regard to the planting of trees. I met with [redacted] yesterday regarding the planting of 3 additional trees on the verge. Urban Treescape will carry out this planting during autumn/winter. This is the only component of the application that I am involved with. The parking and the installation of bollards will require input from Place Management.

Nature Strip Development Application
Banks ACT 2906

9th December, 2012

Dear Sir/Madam,

I am writing to put in an application for our nature strip for your consideration, over the past 12 months I have been having correspondence backwards and forwards relating to the neighbourhood using the nature strip as a car park.

We are looking to get approval to be able to place bollards along the nature strip as per drawn on attached Plan “A”. I have also attached many photos highlighting the extent of the cars that park on the nature strip from time to time. The problem with this is that they park within metres of the house at all hours and between the lights shining in our home, the noise so close and the total lack of understanding with neighbours, we have had enough to say the least.

We would look at putting in the bollards in line with the recommendations of 1.2m parallel to the road and our laneway Marked “B” to stop them driving up and parking out our front door also. We would look to have the Item “D” bollards removal to allow any future machinery that would need access to the sewrage line or other areas on the property as required.

We are also looking at whether the right area could look at planting a few trees in the area marked “C” in the drawing to keep in line with the street appeal. There is evidence of a tree or two there before that have been removed over our time living here. With that we would also look at grassing the area from the inside proposed bollards to the property line to help stop the dust blowing in through our home.

and I would of have had this application sent in earlier this year as per our attached emails, though unfortunately we have had a couple of issues and haven’t got around to filling out this application due to the

We are hoping that we can get this approval approved and underway as soon as possible and start to arrange some quotes to get this underway before the festive season finishes.

We appreciate your help and support with this matter.

Regards,
Approval pending advice from Urban Treescapes

NATURE STRIP DEVELOPMENT
APPLICATION

A minimum of 14 days is required for processing

Printed Name
A-65

Detailed sketch plan - (in scale) of your proposal on a separate sheet of paper.

Details are to include the location of existing footpaths, landscape features, watering systems and nature strip trees, include measurements, plant names (common and botanical) and their proposed location, types of mulch and any other landscape materials to be used.

Trees will only be approved if they match the landscape character for the street. You must also take into account the mature size of plants, to ensure they will not cause an obstruction for pedestrians or line of sight problems for motorists.

Watering systems may be approved, subject to tree protection requirements, include locations any existing system and method of installation (what excavation is proposed), details of proposed water regime and how it will be controlled.

The lease holder(s), body corporate manager or legally appointed representative(s) must complete and sign the form.

Conditions and Terms

[Text]

Notes:

[Text]

Landscape Development

1. Landscape development may include the following features: garden beds, rockeries, paving, trees, shrubs, ground cover plants, and similar materials.
2. Ten baulk, wood chips, loose soil or other materials will only be approved if stable and suitably contained.
3. If you wish to remove any trees, you or a previous leasee have planted on the nature strip, you are required to obtain written approval from Parks, Conservation and Lands on telephone 132691.
4. If you do not have a street tree and would like one planted, contact Parks, Conservation and Lands on telephone 132691.

Street Tree Protection Requirements

5. Adequate protection for nature strip trees is required. This can be achieved by:
   (a) no unapproved excavation within the drip line of trees;
   (b) no excavation for services, driveways, or footings within 1.0m of the tree trunk;
   (c) avoiding hard paving surfaces which create an impenetrable layer. Preventing air and water from reaching tree roots; stop paving at least 600mm from the trunk of the tree and provide a granular diffusion layer under the pavement and
   (d) ensuring that the ground level around nature strip trees is not altered and that materials are not to be built up around the base of any trees.

Pedestrian Access, Line of Sight and/or Obstructions

6. A strip of grass or stable surface a minimum of 1.2 metres wide must be maintained at the back of beds for pedestrian access. No obstruction is permitted within this 1.2 metre wide strip. Any edging must be flush with the adjacent ground.
7. Foliage which is on the nature strip, or growing on your lease and overhanging a footpath, must be pruned to maintain a minimum height of 2 metres clear above the path and pruned back in line with the edge of the footpath (including hedges and ground cover). For safety purposes, pedestrians must have access to the entire width of the footpath.
8. Foliage or structures are not to cause a line of sight problem for vehicles or pedestrians when using, entering or exiting an intersection, driveway or footpath.
9. Where a lease is adjacent to a pedestrian walkway which meets a road, extra provision for line of sight must be considered.
10. Grass should be kept below 0.6 of a metre, to ensure that it does not cause a line of sight problem or a fire hazard.
Log Barriers and Bollards

11. Log barriers -- Are generally not approved on the nature strip.
12. Bollards - vertical piles (100-150mm in diameter) are permitted on the nature strip provided they are positioned a minimum of 1.2 metres from the back of the kerb. They are to be inserted with a gap of a minimum of 1.8 metres between each bollard and extend a minimum of 600mm in height above the ground. A row of bollards can be erected at right angles to the road provided they are positioned a minimum of 1.5 metres from any driveway or footpath.
13. Temporary protective fencing is permitted with approval. If constructed and maintained in a safe condition, in areas where newly seeded soil or turf is located. Protective fencing must be clearly marked with reflective tape or similar materials etc. Permanent fencing is not permitted.

Watering System

14. The system must be regulated and maintained so that water does not fall on the footpath (where provided), roadway or adjacent driveway(s) under normal weather conditions.
15. The requirements of public utility authorities, (eg, gas, telephone, electricity) must be met concerning installation procedure where services are contained within the road verge.
16. Should the need arise for maintenance of any public utility or tree contained within the road verge, the Territory will not be held responsible for any damage to the watering system.
17. The Territory will not be responsible for any damage caused to the watering system by roots of trees planted or maintained by the Territory.
18. The watering system when operating, is to cause minimal inconvenience to pedestrians and must be kept in good repair (ie, no leaking sprinklers over footpaths and down gutters).

Sound

The Environment Protection Act 1982 and the Environment Protection Regulation 2000 has established noise emission standards for the ACT. The Applicant is to ensure that noise from mechanical plant comply with these noise standards at all adjoining properties. The noise standards are set out below.

Management of Land by Applicant

20. The area shall be managed by the Applicant in an orderly and safe manner. When vacated it should be left in a clean and tidy condition and reinstated with topsoil and grass to the satisfaction of the Territory and at no expense to the Territory.
21. Any damage to grassed surface, footpaths, kerbs and gutters, trees, irrigation systems or any other installations or services contained within the leased land must be fully restored by the Applicant, to the complete satisfaction of the Territory and at no expense to the Territory.

AOT Government Requirements

22. Should the need arise, the area is to be vacated within a period specified by the Territory, at no expense to the Territory.
23. Should the need arise for the installation, maintenance or erection of any public utility or Territory improvement on the leased land, the Territory or public utility provider will not be held responsible for restoration of any subsidence, material or item affected by the said installation or erection.
24. If this application is approved, all costs arising out of the Applicant's use of the leased land, including the relocation of any engineering services, will be borne by the Applicant.
25. The Territory reserves the right to withdraw, make changes to, or change the conditions to an approved application at any time. Changes are to be completed at no expense to the Territory.
26. In the case of a nature strip development, should the applicant resolve to sell his/her lease, he/she will, prior to such disposal, supply the Territory with the name and address of the intending purchaser. The new owner must in writing agree to continue this contract and adhere to the above conditions, or relinquish the area back to the original grant condition to the satisfaction of the Territory.
LOG BOLLARD

Before installation of the bollards, Dial Before You Dlg, 1100, must be contacted to ascertain if any services are in the digging/post hole zone.

Log bollards: tanalith treated pine logs 120-200mm in diameter and at least 1.5m long or recycled plastic bollards 1.5m long, for urban areas.

Posts must be at least 600mm below ground surface and 900mm above ground level and concreted in place.

Posts to be spaced at 1.2m intervals, from the outside of post to outside of the next post.

Posts to be installed at 1.2m, measured from the back of the concrete kerb to the outside edge of the post, along the line of the kerb.

A 100mm wide mowing edge can be put around the post, using the cement from the installation.

Posts are to be sighted/string lined to maintain an even appearance.

If there is a tree on the nature strip that will be in the line of bollards then information from City Services, Urban Treescapes will be required. Call Canberra Connect 13 22 81.

Log Bollards

![Diagram of log bollards showing 120 to 200mm diameter, 900mm, 600mm, and 1.2 metres between posts.]

NB: Not to scale.
Hi Matt,

Unsure if you are getting Darren's emails, though I'm hoping that you may be able to help us out with an update.

Appreciate your help

Good evening Darren,

Happy New Year, hope you had a good festive break.

I was wondering if you are getting close to giving us an update on our application. Just as a support I have included a couple of more photos that cement the application that we had to put up with over the Christmas break.

Look forward to hearing from you soon

Regards,

The nature strip application needs to go to Darren Gerrard. He will consult with Scott as part of the assessment process.

Cheers

Hi Timo,

Thank you again for your support and keeping us updated. I am in the process of putting in a Nature Stripl Development into Scott for consideration.

Let's see how we go,

Many thanks

G'day Timo,

Sorry I have been on leave, I have asked the supervisors to put some more pressure on the area.
the officers can issue warnings to the offending cars (they do work on weekends). If that doesn’t work, then a physical barrier may need to be considered.

The Land Manager, Scott Pittard, will investigate the possibility of bollards or other form of nature strip development. If that continues to be your wish, you will need to apply for a nature strip development approval from the Public Use Coordinator, Darren Gerrard on (02) 6205 7245.

Regards

Did you talk to Darren Gerrard about a permit to put in bollards as mentioned below?

regards

Good morning Timo,

Sorry to bother you again, though [Redacted] and I are at our wits end with people just thinking the front of our house is a public car park, with no parking operations today and always continuous parking late at night we are sick of people parking only metres from our home. There are about a dozen cars parked outside our windows presently.

Attached are some photos of this morning. Could we please look at getting some bollards or barriers put in as this is becoming unacceptable. If you are not able to help could you please supply further details for us to peruse. We really need some support, help and action on this please!
Look forward to hearing from you.

Could you please send me your photos in relation to the illegal verge parking at [Redacted] Banks. In the first instance, could you please call the parking operations on 6207 7200 when you see the unauthorised parking, so that the officers can issue warnings to the offending cars (they do work on weekends). If that doesn’t work, then a physical barrier may need to be considered.

The Land Manager, Scott Pittard, will investigate the possibility of bollards or other form of nature strip development. If that continues to be your wish, you will need to apply for a nature strip development approval from the Public Use Coordinator, Darren Gerrard on (02) 6205 7245.
